info@cambridgeinternational.org**A message for candidates and their families**

We wrote to you and your school in June 2025 to explain the actions we are taking to protect the integrity and fairness of the assessment for the following syllabuses/components:

- Cambridge International AS & A Level Mathematics Paper 12, where one question was shared before the exam was taken
- Cambridge International AS & A Level Mathematics Paper 42, where parts of two questions were shared before the exam was taken
- Cambridge International AS & A Level Computer Science Paper 22, where parts of one question were shared before the exam was taken.

If you would like to read our previous letter or have any questions, please speak to the exams officer at your school.

The actions we are taking protect those candidates who have not viewed question paper content before the exam and ensure any candidates who have chosen to access question paper content before their exam will not have any advantage and will not achieve higher marks.

Will results release be the same as usual?

Yes. We will issue Cambridge International AS & A Level syllabus grades in the usual way on 12 August 2025 (our published results day). Your grade(s) will be based on question paper content you have completed.

I would like to reassure you that:

- we will send printed statements of results and then certificates to your school in the usual way.
- your results will still be considered for the Outstanding Cambridge Learners' Awards and be accepted by universities in Pakistan and worldwide.

Your school can support you if you have any questions about how you will receive your results, when they will be available, or your final syllabus grade(s).

Please speak to your exams officer if you have questions about any of the information in this letter or if you have questions about your results.

We wish you well on results day, and with your education and next life steps.

Best wishes

Anthony Dawson

Director of Assessment Standards
